RE: Mike Gogel recommendation

To Whom It May Concern:

I have had the pleasure working directly with Mike Gogel at Moon Valley Country Club and I have personally known Mike for the past fifteen years. He has done an outstanding job designing our landscape renovation project and helping to manage the construction process. Mike has helped our property and other properties within our portfolio, become more efficient and has found ways for our projects and operations to be more cost effective. Mike has also provided designs for water features, bunker renovations and has even designed our new pin flags.

Mike has excelled with Landscapes Unlimited, Desert Mountain Properties and in his own business. He is well known within the Golf Course Superintendent community in Phoenix and is respected by his peers. I will use Mike for our future design and construction projects and would recommend his talents to anyone within the golf industry.

Sincerely,

Reid Scholes

VP of Agronomy
CBONS International Golf Group
Golf Course Superintendent
Moon Valley Country Club
